

# NAMIB NAUKLUFT HABITAT FACT SHEET

The Namib Desert - the oldest on earth - is a living desert! Flora and fauna are perfectly adapted to this harsh environment

Since 1993 the animals may roam freely and undisturbed hosting a variety of game also mentioned in this guide in detail

Sundowner drives and simply waterholes around the lodge promise an opportunity to observe wildlife

25,000 ha Private Nature Reserve bordering this World Heritage Site from the Namib Desert to the Naukluft Mountains and offers a unique and diverse desert environment for its plentiful wildlife

Namib Naukluft Lodge

Soft Adventure Camp

Pumps operating with solar energy supplies water to establishments and also waterholes

Tracks give an idea of roaming behaviour of the animals.
